==== WELCOME TO THE ESCAPE ROOM ====

You have 3 lives.

Solve all 4 puzzles to escape!

Room 1:

Which keyword is used to create a class in Java?

class

? Correct! Door unlocked.

Room 2:

Which component executes Java bytecode?

JVM

? Correct! Door unlocked.

Room 3:

Which loop executes at least once?

do-while

? Correct! Door unlocked.

Room 4:

Which keyword is used to exit a loop?

break

? Correct! Door unlocked.

? Congratulations! You escaped the room!
